Extensions of time will be granted when: (1) changes in the work occur that require additional time, (2) when the work is suspended (3) or when the work of the Contractor is delayed on account of conditions which could not have been foreseen, or which were beyond the control of the Contractor, Subcontractors or suppliers, and which were not the result of their fault or negligence. Extensions

of time for completion may also be allowed for any delays in the progress of the work caused by any act (except as provided elsewhere in the Contract Documents) or neglect of the City or its employees or by other Contractors employed by the City, or for any other cause which in the opinion of the City entitles the Contractor to an extension of time, including but not restricted to fires or floods not caused by the Contractor, unusually severe weather, or labor strikes. If the Contractor claims that any act of the City, Designer or other Contractor or other occurrence beyond the contractor's control has hampered the contractor's ability to complete the project by the date required by the Contract, the Contractor shall give written notice to the City within seven (7) days of the occurrence, or such claim shall be conclusively considered waived by the Contractor and no extension of time shall be granted based thereon.

11. DELAYS:

11.1 OTHER DELAYS

The Contractor shall be entitled to an extension of the time for contract completion, but such contract time of completion shall be extended no more than one day for each day of delay. Any such agreement to modify or extend the time of contract completion shall be made in writing by formal addendum to the contract. The time of application of liquidated damages shall not begin until after the amended date for contract/phase completion. Such hindrances and delays may include, but not be limited to, acts or failures to act by other contractors employed by the City, fires, floods, labor disputes, epidemics, abnormal weather conditions, or acts of God.

11.2 WEATHER DELAYS

The contract time shall include an allowance for adverse weather days equal to a ratio of four (4) work days for every thirty (30) calendar days of Contract time. The Contractor shall submit to the City, weather delay request in writing within seven (7) days of the weather delay. Request for extensions of time due to weather shall be evaluated on the basis of lost days in excess of the above allowance. All approved weather delays shall be added to the contract by Contract addendum. When the Contract time has been extended, such extension of time shall not result in any additional compensation to the contractor.

12. LIQUIDATED DAMAGES:

If the work is not completed by the time stipulated by the contractor, the City reserves the right to cancel the remaining portion of the contract and re-procure for competition of such work. The Contractor shall be charged as liquidated damages any excess costs or damages occasioned thereby.

No vegetation outside such excavation areas, or on private property, shall be removed, trimmed or otherwise disturbed without the consent of the property owner where the vegetation is located.

The contractor shall protect all vegetation from injury within, and adjacent to, the project site. Contractors and subcontractors in violation of this provision will forfeit to the public body \$2,500 plus \$100 a day for each employee who is employed without training.
