

CITY OF AURORA

P.O. BOX 30
AURORA, MO 65605
PH: 417-678-5121

Public Meeting Announcement:

Stormwater Infrastructure Plans

The city of Aurora is engaged in a planning study of the major stormwater infrastructure within the city limits. We are gathering information to assist the city and their engineer in identifying problem areas within the city. Flooding of homes, properties, buildings and roadway flooding are of primary concern. The information the citizens of Aurora can provide will help the city identify and prioritize future projects within the city.

A public meeting is planned for **July 12 at 6:00 PM in the Aurora City Council Chambers located on the third floor of the Aurora City Hall, 2 W. Pleasant, Aurora, MO**

The City of Aurora encourages input from Aurora citizens, business owners or other individuals on this important issue. The general public is encouraged to attend to voice concerns, ask questions, and to view the proposed stormwater plans.
