

## Survey 2010

This is a summary of how the surveys were distributed

Survey numbers 1-3000 distributed to City hall for mailing

- Sherry mailed 2470 out with tax statements / receipts

- 35 returned with no answer,

- 203 completed and returned to City Hall

- 4 of the above 203 surveys returned had their numbers cut off . So I classified them as non-tax payers

- This gives a 8% return by tax payers since I could only identify 199 as tax payers

- This highest number turned in was #2990

Survey numbers 3001-3100 available @ city hall only 14 were taken –( 3001-3011, 3018, 19 & 20)

Survey numbers 3101-32200- available @ Library-30 taken (taken 3101-30)

Survey numbers 3201-3300 – available @ Chamber of commerce-only 6 taken (taken 3201-2306)

Survey numbers 3301-3400 –available @ Aurora Advertiser-only 10 taken (taken were 3301-3310)

Survey numbers 3401-3497 – more available to distribute as needed – no further distribution needed

A total of 60 were taken from other sources besides thru City Hall with the possibility of 4 returned from that batch. That yields a 7% return rate.
